

TEXAS ACADEMY of FAMILY PHYSICIANS FOUNDATION
12012 Technology Blvd., Ste. 200 • Austin, Texas 78727 • (512) 329-8666
*Encouraging the growth of family medicine in Texas through the support of medical students,
residents and research.*

TAFP FOUNDATION STUDENT INTEREST ENDOWMENT
Recruit the family doctors of tomorrow. Build the Foundation today.

When medical students get a chance to observe family physicians caring for their patients, they see first-hand the kind of relationships a family doctor can build in a community. These experiences can change a medical student's life, setting that student on a path toward a career in family medicine. Preceptorships like those supported by the Texas Statewide Family Medicine Preceptorship Program offer students such opportunities, and the Texas Academy of Family Physicians Foundation has committed to ensure that medical students will continue to have that chance with the Student Interest Endowment.

Now, the Foundation has pledged to double the impact of donations to the Student Interest Endowment. During the **Ignite2015** campaign, the Foundation will match every donation to the Student Interest Endowment. The campaign will end on Dec. 31, 2015, or when the Foundation has committed \$100,000 to the endowment.

What are you waiting for? Double your donation in support of the future family physicians of Texas and let's ignite student interest in family medicine in 2015.
