COUNCIL ON MEDICAL PRACTICE REPORT

Author: Jonathan Nelson

Meeting date: August 25, 2022

The following members attended the virtual meeting: Graciela Moreno, Tina Philip, Oscar Garza, Nicole Denise Lopez, Puja Sehgal, Richard Young, and Gerald Banks.

MINUTES

1. The meeting was called to order by Graciela Moreno, MD, chair at 6:03 p.m.
2. The council report from April 8, 2022 was approved.
3. Members discussed topics for a draft agenda for the council's town-hall-style forum at Annual Session in October. Ideas included:
 - a. A discussion or presentation on the outcome of TAFP's resolution on AAFP's policy regarding the CPT coding system.
 - b. A major focus on administrative burdens to perhaps include:
 - i. A discussion among the group on what are the most difficult or time-consuming administrative burdens the assembled members experienced. Question: who should facilitate that discussion?
 - ii. Ensure the discussion has some focus on small practices.
 - iii. Consider in the discussion alternatives to technological solutions, such as medical scribes.
 - iv. A presentation on what AAFP is doing to address administrative burdens.
4. The council also discussed recent reports published in the New England Journal of Medicine that questioned the wisdom of pursuing value-based care as a systemwide solution to problems of cost and quality. Those three articles were subsequently shared with the full council.
5. Staff will work on a draft agenda for the live forum to send to the council via the TAFP Exchange.
6. The meeting was adjourned at 7:03 p.m.

Council on Medical Practice Forum
